

BOAT CLEANING INSTRUCTIONS:

To help prevent the spread of COVID-19, the following directions must be followed to clean and disinfect club boats. Club boats **WILL NOT** be handed off at the dock.

1. Upon returning to dock, please put on a mask/face covering. It is mandatory.
2. De-rig your boat and proceed to the West Shed cleaning area. Once all of your boat and its parts are at the West Shed cleaning area, spray the seat, foot wells and foot pedals with disinfectant. The area does not need to be saturated but covered. For marathon canoes, ensure the seat, front and rear foot braces and area are sprayed with disinfectant. Once the disinfectant has been applied; wash the remainder of boat and all its parts with soap and water.
3. Rinse the entire boat with water, including the seat, foot wells and pedals area.
4. Place boat and remainder of parts back in the assigned rack. The boat and its corresponding parts must remain in the assigned rack for 30 mins or longer.
5. Wash your hands with soap and water or provided hand sanitizer.
6. Once you have left the West Shed, you may remove your mask/face covering.
